

Rogovich Vladislav

Junior QA Engineer

Summary

I am a man with a motivation t to work in your company, to build necessary skills in order to make myself a good worker and a teammate people can rely on. I am looking for a way to improve myself and my skills. I want to work on a problem or project until it is finished. I want to tackle projects that test my abilities to their limit. I'm really inclined to do my best and deliver a good product to users. I studied basics of UI/UX Design and made my a Mocap of my own Mobile App. I studied basics of QA Testing and partook in testing of a web site. I can be easily taught, motivated, stress resistant and able to do formulate tasks.
